Science Teacher/ unqualified or QTS.

Unqualified pay range: £18169-£24507 pro rata Term time only

MPS £25714-£36961 pro rata Term time only

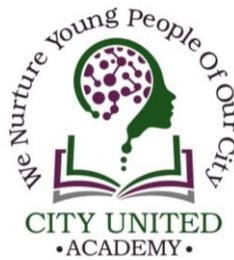

City United Academy (CUA) is an independent school rated Good by Ofsted. Our aims are to provide a safe, rounded educational provision for those young people whose learning pathway has taken a different route. We aim to accommodate the academic and well-being needs of those young people who have experienced difficulties in mainstream education.

Our dedicated and highly skilled team provide the support needed to allow our young people to find their own self-identity and flourish in an environment where they feel secure and happy. We aim to create an enjoyable learning experience in which every young person can overcome the challenges they have faced along their educational journey. Our shared values of re-engage, inspire and nurture help us to maximise our young people's outcomes as they enter adulthood.

The post of Science Teacher is available on a full or part time basis from September 2022; ECT applications are welcome. We will also consider applications from graduates or anyone with a subject specific degree who would like to progress onto qualified teacher status. This is an excellent opportunity to join a good school. We hope to employ a Science Teacher who will enable our learners to develop the underpinning knowledge, analytical skills and inquisitive attitude that will enable them to make sense of the world around them. We are looking for a Science Teacher to join our team and inspire and create enthusiasm for this very important subject. We can offer a supportive culture that is constantly seeking to improve learners' experience and attainment through working collaboratively and being willing to adopt new ideas.

We are looking for a Science Teacher who has a passion for working with young people. We encourage our young people to be dynamic and we are looking for a dynamic Science Teacher to lead by example and make lessons fun and interesting. The successful Science Teacher will have a wide subject knowledge specific to science and must have at least a science related degree. In return we can offer small class sizes of less than ten students. Continuing professional development and a very supportive team of co-workers. We believe that our teachers should have a healthy work life balance and therefore we support all work related tasks being completed within your working day. City United Academy operates as a family and all members of that family are valued and supported.

City United Academy is committed to safeguarding children and the post is subject to an enhanced DBS check.
