Recruitment tips for 'talent mobility'

Top tips for creating a culture that encourages 'talent mobility' have been published by a recruitment specialist on Westside.

Richard Guest is an associate partner and head of practice at Berwick Partners – an Odgers Berndtson company based in the Oozells Building at Nine Brindleyplace.

His online guide aims to help companies make the procurement profession more 'attractive' and states that there is often a benefit from hiring candidates from other professions with 'transferable skills'.

Mr Guest's four top tips are:

1. Create a culture that encourages talent mobility
2. Equip procurement leaders with the time and training tools they require
3. Make procurement more desirable to other professions, and
4. Position procurement as an all-round rewarding profession.
